

Fiber Optic, Electrical & Telecommunications
 Durability, dependability and accuracy in application are the hallmark of the Miller® brand. Miller offers a wide variety of specialty cable preparation tools for the Fiber Optics, Electrical, Electronics and Telecommunications industries. Always innovative, these tools are designed with the professional in mind. Manufactured to our unparalleled quality standards, and always innovative, these tools are designed with the professional in mind. Ease of application coupled with superior results has made Miller tools the top choice.

Riser Break-out Tool

- For use in FTTH - MDU (Multiple Dwelling Units) as well as other riser cable applications.
- Tool is compact and lightweight and incorporates a rugged aluminum body design.
- Allows easy and fast access to closely spaced riser cables especially in small confined areas.
- Compact and thin profile tool design allows for ease of use separating it from the mounting surface.
- Shaves a longitudinal break-out window in 8.5 mm, 10.5 mm and 14 mm O.D. riser cables without any time consuming tool adjustment.
- Factory fixed shaving blade made of high carbon steel and is safely recessed away from installer's hand to minimize exposure.
- Dimensions: 4" x 1.5" x 5/8" (100 mm x 38 mm x 17 mm).
- Weight: 3.68 oz (105 g)
- Part No.: 81315
